Children for Change Inc

AICE CLUB

Recruiting generations of
environmentally aware children
for a cleaner, greener & more
sustainable way forward.

Children for Change Inc is a Cairns based Not for Profit Organisation founded & coordinated by local twin sister team Mia & Sylvia Conway.

We believe that constant exposure with nature is vital to a child's health and well-being and that our natural environment is the perfect classroom for children to gain many important life skills. The paradox of this is that the future of our planet lies deep within the values and beliefs we in-still in our children today and in reality, nature needs our children just as much as they need it.

AICE Club is a fun filled, educational after school environmental activity program & was established with the aims of getting our kids back outside where they can learn about and build a respect for their natural environment. From these encounters we hope they will be equipped with the skills and knowledge to go on making positive decisions in their everyday lives and in the future as leaders.

AICE CLUB

What will we be doing?

- AICE Club Children will be embarking on some fun, action packed and educational explorations of the many different coastal ecosystems within our local area.
- Through these explorations we engage children in conservation processes by asking questions and getting them problem solving, turning their ideas into conservation actions.
- At the end of the term children get creative by designing a poster based around a self-chosen topic they have learnt about. They then decide if they would like to present it in class passing on their knowledge to their classmates.

Who can be involved?

- All children aged between 7 and 13 years who have a sense of adventure, a thirst for knowledge & some energy to burn.

When does it happen?

- AICE Club runs for 8 consecutive Monday afternoons & 1 full Saturday over each of the 4 school terms.
- For 2 hours with drop off from 3:00 to 3:15 pm & 5:00 pm pick up

Where does it happen?

- Various locations around the Northern Beaches area of Cairns

Requirements

Children will need to:

- Bring water bottles
- Wear sun smart clothing & a wide brim hat
